

What if people who have directly faced poverty were involved in decisions about poverty?

Poverty Truth Birmingham aims to understand the causes and real effects of poverty in our city. We will do this by involving people who live day to day in poverty and are therefore experts by experience .

These Testifiers will be able to share their experiences with business and civic leaders from across the city over a one year period.

This is all about helping people tell their stories and exposing civic leaders to the reality and experiences of poverty, aiming to secure long term change through understanding.

Do YOU have a story to tell?

Does this issue affect others?

With support, could you share your story publically ?

If you are interested in taking part and have a story to tell, please get in touch, we would love to meet you for a chat.
